

Tuesday 6th July 2021

Dear Elder and Pine class,

We are so excited that you will be joining us next year in **Year 3 Iroko class** at the Junior School. We are really looking forward to sharing all of the new and wonderful things that we will be doing in year 3

You may also be questioning what teacher you will have this coming year. It is me, **Ms. Rosenthal** and **Mrs. Hensley** will be the learning support assistant. We both love working in year 3 because we get to join you as you start your new adventure in the junior school, and we get to see your tremendous growth throughout the year. Here is some more information about us LSA so you can get to know us a bit before our start in September.

Ms. Rosenthal - Class Teacher

I am from Canada and have been living and teaching in the greater London area for over two years now. England is the fifth country I have lived in. In addition to teaching, I love travelling, languages, meeting new people and being active. I speak French and was a French language teacher back at home in Canada. I love animals, have a pet cat and hope to get a Pug dog one day. As for fitness, I used to be a competitive ice skater and now I do daily home workouts, play tennis and surf when I travel to other countries. I also love Disney, watching films, reading and spending time outside.

Mrs. Hensley- learning support assistant

As a student, I loved Art the most and I still love being creative with crafts and drawing. My favourite colour is blue. I speak Portuguese and have two Sharpei dogs. I also enjoy listening to salsa music and going dancing. My hobbies include shopping and eating pizza. I am very excited to meet you all in September!

A few things we will be learning about in Year 3:

In Maths we get to learn about place value, multiplication, fractions, shapes and time. In English we will be reading multiple stories, creating and sharing our own works of writing through story maps in many different styles. In Science we get to carry out experiments and find out about light, plants, animals - including humans, magnets and springs and rocks and soils. In history, we go back in time to look at the stone age and iron age, while in geography we study climates and weather, our world, and coasts.

If you'd like to say hello and write us a message to tell us a bit about yourself, you can ask a parent to help you send us an email on irokoclass@harefieldjunior.com

We hope you have a safe, fun and relaxing summer holiday and we are very excited to see you back in September!

Ms. Rosenthal and Mrs. Hensley
